

MENTORING *for HER* GROWTH

an **impactful, cost effective** and **lasting** way to accelerate the development of female talent

Are you looking for ways to...

Accelerate women's careers in your organization?

Foster Diversity, Equity and Inclusion?

Support culture change?

MENTORING for HER GROWTH

can deliver this relatively quickly without a massive investment.

The program is a combination of learning labs, reflections... and lots of practicing. We provide mentors and mentees with reference material.

What is it?

Mentors will be trained in supporting their mentees to accelerate their development and growth by using **Enabling Strategies** such as: Applying the Growth Mindset, Learning from Role-models, Mitigating Biases, Building your Reputation, Setting Boundaries.

How do we support?

- We co-create the content of the program together with you
- We train the mentors-to-be online for circa 4 half days
- We support the mentees in getting ready for their mentoring journey
- We facilitate the matching between Mentors and Mentees if requested
- And then: we step back, **but remain available!**
